[MP2] error message 疑問

蕭皓澤 (HSIAO, HAO-TSE)

All Sections

1 1

在我執行 ./mp2 testcase all 的時候，跑出了以下錯誤

== Test Slab check (Max [3(+5): slab structure (with bonus)] + [2: max objects]) (10%) ==

Failed to connect to QEMU; output:

user/gah.c:6:10: fatal error: user/ok.h: No such file or directory

```
    6 | #include "user/ok.h"
      |          ^~~~~~~~~~~
```

compilation terminated.

make: *** [<builtin>: user/gah.o] Error 1

Failed to shutdown QEMU. You might need to 'killall qemu' or

'killall qemu.real'.

但我實際上沒有更改相關的程式，想要請問是什麼問題？

Saturday

同學您好：

請再次執行 ./mp2.sh update。

子慶
