[MP2] 在本地 test 有過，github 上 autograde 0分

蔡岳璇 (TSAI YUE-SHIUAN)

All Sections

我在本地 test all 有通過，推上去之後在今天稍早的 autograde 得到 0 分

Actions 中的執行結果：

```
== Test Slab check (Max [3(+5): slab structure (with bonus)] + [2: max objects]) (10%) ==
Traceback (most recent call last):

參考了 [[mp2] pseudo_fslab.pyx 出現 KeyError: 'file' (https://cool.ntu.edu.tw/courses/46296/discussion_topics/382429?wrap=1)](https://cool.ntu.edu.tw/courses/46296/discussion_topics/382429?wrap=1)，不過還是不太理解

--

另外也參考了 [[MP2] About Autograding test on 3/31 (https://cool.ntu.edu.tw/courses/46296/discussion_topics/384906?wrap=1)](https://cool.ntu.edu.tw/courses/46296/discussion_topics/384906?wrap=1) 中的第五點做測試：

```
(base) yuexuan@caiyuexuandeMacBook-Pro tmp_grader % ./mp2.sh update
/Users/yuexuan/opt/anaconda3/bin/curl
  % Total    % Received % Xferd  Average Speed   Time    Time     Time  Current
                                 Dload  Upload   Total   Spent    Left  Speed
100  4143  100  4143    0     0   7516      0 --:--:-- --:--:-- --:--:--  7532
Your mp2 is the newest version!
(base) yuexuan@caiyuexuandeMacBook-Pro tmp_grader % ./mp2.sh test all
Traceback (most recent call last):
  File "/home/student/run_test/test/run_mp2.py", line 4, in <module>
    from pseudo_fslab import interpreter
ModuleNotFoundError: No module named 'pseudo_fslab'
Error: Test failed or timed out after 5 minutes.
Interpretation Error or Timeout!
Failed to parse your slab.
If you think this is buggy, please console to the admin.
Score: 0/0
(base) yuexuan@caiyuexuandeMacBook-Pro tmp_grader %
```

已參考 [[MP2] No module named 'pseudo_fslab' (https://cool.ntu.edu.tw/courses/46296/discussion_topics/384312?wrap=1)](https://cool.ntu.edu.tw/courses/46296/discussion_topics/384312?wrap=1)
但 update、重新 clone 都是一樣的結果

請問我能做什麼調整解決這個問題呢？

謝謝！
